

Eliezer A Meza

Full Stack Software Engineer

📞 +58 412 2970632 | ✉ eliezermeza.dev@gmail.com | 🌐 Portfolio | 🌐 LinkedIn

PROFESSIONAL SUMMARY

Full Stack Software Engineer with 4+ years of experience designing scalable architectures and web and mobile applications (Nuxt/Vue, Next.js, Node.js, Flutter). Specialized in Fintech and ERP systems, with experience building platforms for regulated financial institutions, SEO-oriented public websites and CRM applications. Focused on taking solutions end to end into production.

FEATURED PROJECTS

Maximiza Casa de Bolsa

JUN 2026 – AUG 2026

Full Stack Developer

Case study

- End-to-end development of the Maximiza Casa de Bolsa platform: SSR web portal in Nuxt, rebuilt SEO layer (sitemap, robots, structured metadata) and PWA, plus a CRM backoffice on a shared NestJS backend.
- CRM application: full prospect handling cycle and registration of users coming from the website, WhatsApp and Instagram, with assignment, status tracking and RBAC.
- Multichannel chatbot implemented as a finite state machine with Meta API integration.
- Tech stack: Nuxt, NestJS, TypeScript, PostgreSQL, Tailwind CSS

Kairos CMS

MAY 2026 – Present

Full Stack Developer

In development

- Design and development of a headless CMS consolidating 10+ separate instances into a single platform to cut monthly infrastructure cost by at least 40%.
- Decoupled 4-layer architecture (Nuxt / Express / data access layer / PostgreSQL), with multi-project hierarchy and data isolation through per-project API keys and a CORS whitelist.
- Visual field builder with schemas persisted as JSONB, editable without DDL migrations.
- Endpoint kill switch taking effect in under 2 seconds, direct-to-Cloudinary media uploads so the backend never stores binaries, and global backups running in the background without blocking the event loop.
- Tech stack: Nuxt, Express, Node.js, TypeScript, PostgreSQL, Cloudinary

EXPERIENCE

Novanet Studio C.A.

NOV 2024 – Present

Full Stack Consultant

Remote, Freelance

- Led requirements gathering and planning for 10+ web platforms, defining the tech stack (Nuxt/Astro/Svelte) and reducing initial Time-to-Market (TTM) by 20%.
- Responsible for the end-to-end development of the Maximiza Casa de Bolsa and Kairos CMS projects (see Featured Projects), covering requirements, architecture, backend, frontend, QA and deployment.
- Built and integrated c2p payment modules into existing ERP systems, processing 200+ daily transactions and improving invoice closing efficiency by 60%.
- Maintained and upgraded 5+ existing web platforms, with a 20% reduction in load times and consistent improvements in SEO performance and Core Web Vitals.
- Main tech stack: Nuxt, Vue, Astro, Node.js, NestJS, Strapi, PostgreSQL

Kodea Labs

MAY 2025 – JAN 2026

Mobile & Frontend Developer

Remote

- Architected and built native crypto wallets (iOS/Android) from scratch using Flutter, implementing encrypted transaction flows over a RESTful API with a focus on security and service availability.
- Solved complex compatibility challenges by creating forks and customizing pub.dev packages, enabling the integration of advanced features.

- Implemented the transactional interface of a Fintech platform using Next.js and React, optimizing the Critical Rendering Path to reduce load times by 30% and enabling smooth crypto-to-fiat exchange.
- Main tech stack: Flutter, Next.js, React

Spartan Techs C.A.

Development Analyst

OCT 2021 – MAR 2025

Porlamar, Nueva Esparta

- Designed and built enterprise applications for 200+ active users, integrating advanced features such as inventory control and cost analysis.
- Contributed actively to Frontend and Backend development teams, delivering full-stack solutions that improved code cohesion and reduced integration errors by 15%.
- Main tech stack: Ionic/Angular, React, Next.js

EDUCATION

Universidad de Margarita

Systems Engineering

SEP 2018 – NOV 2023

- Completed my academic program with honors for my thesis, developing an internal process management system for a technical service department.

Udemy

Curso completo de React. Desde 0 hasta Desarrollar apps.
